

**Instruction 1:** Go to File and 'Save As' and save this document with the file codename for the participant you are about to interview. Make sure that they file is saved to your secure location.

Please take your time to read through this survey, making sure that you are familiar with it.

Make sure to ask the respondent what language they would like to answer the survey is in. Offer them Ga, English or Twi.

Reassure the respondent throughout that all their information is secure and will be anonymous.

At the end of this survey is some information on sexual and reproductive health and also on COVID-19. If people ask you questions, please refer them to these services.

**Remember:** Try to ask the questions in the same way each time, for consistency.

Unless instructed, try to avoid reading out the categories for questions. Instead pick the category that fits their answer best.

Remember to assure people that everything is anonymous and confidential

**Instruction 2:** Read the participant this information sheet.

## INFORMATION SHEET

Exploring the relationship between men, masculinities and post-coital pregnancy avoidance,  
Ghana  
XXXXXXXXXX

**WRITE:** Participant codename [the same as filename]: \_\_\_\_\_

**READ THEM:** Now that you have been provided the information sheet and asked your comprehension and consent, can I confirm whether you have any remaining questions for me before we continue the mobile phone survey / interview. I would like to make sure you know that your participation is voluntary and if you don't want to answer any questions, that is okay. I have read you the contact details of the PI for this study, in case you have any further questions.

**Please can you clearly indicate if you consent to continuing with this survey / interview:**

WRITE: Your name:

Date:

Respondent consents to be interviewed [If true, type 'X' and **CONTINUE** the interview]:

**IF** respondent **does not** consent to be interviewed [If true, type 'X' and **END** the interview]:

DRAFT

**Before we start the survey, I would like to check that you are somewhere that you feel comfortable speaking freely. I will be asking you questions that relate to your personal life. If you would like to move somewhere more private, please do.**

**Start the survey:**

Where do you currently sleep?

Do you sleep anywhere else?

How do you know the person who recruited you?

Have you seen them and spoken to them in the past two weeks?

**[Please continue with the interview regardless. If you are unsure about what the respondent answers above, message Joe straight after the interview].**

Can you confirm what gender you identify as?

**[If the respondent answers that they identify as a woman, please thank them and end the survey].**

## SECTION 1 – SOCIO DEMOGRAPHICS

I now going to ask you some questions about yourself.

1.1. Afii enye oye?

1.2. Mei afimli afɔ bo?

1.3. Ani oye fɔmɔ wolo?

Yes

No (Go to 1.4)

Don't know (Go to 1.4)

1.3.1. Ole heni eyɔɔ?

Yes

No

Don't know

1.4. Meni nyo jib o?

## SECTION 7 – ABILITY QUESTION

7.1. Do you have difficulty seeing, even if wearing glasses?

- No – no difficulty
- Yes – some difficulty
- Yes – a lot of difficulty
- Cannot do at all

7.2. Do you have difficulty hearing, even using a hearing aid?

- No – no difficulty
- Yes – some difficulty
- Yes – a lot of difficulty
- Cannot do at all

7.3. Do you have difficulty walking or climbing steps?

- No – no difficulty
- Yes – some difficulty
- Yes – a lot of difficulty
- Cannot do at all

7.4. Do you have difficulty remembering or concentrating?

- No – no difficulty
- Yes – some difficulty
- Yes – a lot of difficulty
- Cannot do at all

7.5. Do you have difficulty with self-care, such as washing all over or dressing?

- No – no difficulty
- Yes – some difficulty
- Yes – a lot of difficulty
- Cannot do at all

7.6. In your usual language, do you have difficulty communicating, for example understanding or being understood?

- No – no difficulty
- Yes – some difficulty
- Yes – a lot of difficulty
- Cannot do at all

7.7. Do you have difficulty performing sexual intercourse?

- No – no difficulty
- Yes – some difficulty
- Yes – a lot of difficulty
- Cannot do at all

7.8. Do you have any challenges affecting your mind?

## QUESTIONS AFTER SURVEY

**Instruction:** Replace the [age category] with the group that you are interested in

How many [age category] do you know in Jamestown?

How many [age category] do you know in Jamestown that know you?

How many [age category] do you know in Jamestown that know you and that you have seen in the past two weeks?

How many [age category] do you know in Jamestown that know you and that you have seen and talked to in the past two weeks?

**Please read:** Thank you for taking part in this survey. Do you have any questions for me?

### **Please read: Recruitment instructions**

I am now going to ask you to recruit a **maximum** of three people who identify as men to take part in this survey. These should be people you are friends with, who you know and have talked to in the past two weeks.

The people you speak to have one week to take part. If they decide to take part, you will be sent an additional 2 cedis for each person. They will also get compensation for taking part.

I am going to tell you my MTN and AirtelTigo numbers. Please pass these onto your friends to call me on. If they call me, I will arrange to return their call.

Here is your personal number [XXXXXXXXXXXX]. Tell your three friends this number, because I will ask for it when they call.

I will also send you an SMS message with these details. Is this the best number to message? If this is not the best number, please can you tell me the best number to message you. I will also use this number to transfer mobile credit.

Do you have any questions about what I have just said?

## NOTES

**Add any notes here from this survey, including how you thought it went, whether there were any challenges, whether anything interesting occurred.**

DRAFT

# Abortion + EC FACT SHEET

Abortion is allowed in Ghana under the following cases:

- In cases of rape, incest or defilement of the female idiot
- If the life or health of the woman is in danger
- If there is risk of fetal abnormality

The Ghana Health Service has provisions for safe abortion services, and safe abortions at public clinics should cost between 50-100 cedis.

Safe abortions are those which are provided by a trained doctor, nurse or midwife using manual vacuum aspiration, dilation and curettage, or misoprostol (Cytotec), and which are performed in a government or private hospital, health centre or clinic.

There are clinics that will say they are health facilities but are not safe for abortions. Make sure to confirm that the clinic is government or has proof that it is an official provider.

For more information:

Call Marie Stopes toll-free for a confidential talk on  
0800 20 85 85 OR WhatsApp them on 0556489090

## Covid-19 Facts

Covid-19, or 'Coronavirus', is a virus that spreads from person to person. The best response to it is to wash your hands whenever possible, limit your social interactions, and wear a cloth over your mouth and nose in public.

Please follow the advice provided by the Ghana Health Service and the World Health Organisation.
